

## A Prayer for Healing

*Lord God, holy Father. We bow our heads before you in praise and thanksgiving for your many blessings, this day and every day. We thank you for your continued love, forgiveness of our sins and the promise of eternal life for all those who believe in you and confess their faith in the Risen and Glorified Jesus.*

*The cries of your children are rising from every corner of the world, Lord. There are many who are suffering because of reasons they have no control over. And so, we bow our heads before your throne of grace praying for all those who are suffering for any reason. May the hungry be satisfied, the homeless find shelter, the naked be clothed, the sick find healing and those who have no faith find their way into the arms of Jesus.*

*We especially pray for all those affected by the Coronavirus. Those whose health are deteriorating, we pray that your healing hand touch them and heal them. For those who lost loved ones to this illness, we pray that the Holy Spirit comfort them and assure them that we are the people of the resurrection. For those who are afraid and do not know what direction to take, we pray that your hand leads them and your love reassure them that they are your children, for whom Jesus died to bring them hope.*

*We pray for the United States. We pray for President Donald Trump and all national and local leaders. Instill in them loving hearts and wise minds. That all the decisions they make will be for the glory of your name and the betterment of all people.*

*We pray for all nations of the world. That wars will cease. Refugees return home. Walls of separation be demolished. So all people experience your love and feel your presence in their lives. May your loving arms embrace every person in every corner of our world. Calm all fearful hearts. Bring peace to all who are disquieted. Sooth all nervous souls. But above all give us the faith to keep our eyes focused on the cross of Jesus and on his Word, believing that you will be with us always, even to the end of time.*

*Bless all families Lord. May your presence be felt in every home. Walk with every parent and child and empower all with the Holy Spirit.*

*This is our prayer we lift before you, Lord, in the name of your Son, Jesus Christ our Savior and Lord.*

*Amen.*
